

Standard Operating Procedure(SOP)

Project Phase 1

Key Responsibilities

Students

Adhere to reporting schedules. Participate actively in presentations. Submit required documents on time. Take responsibility for your success.

Guides

Guides will monitor student progress. Provide necessary guidance. Validate progress reports. Regular check-ins keep projects on track and allow you to provide insights.

Juries

Evaluate the presentations and project execution based on predefined rubrics. The evaluation panel for the final presentation will include the Guide, HOD, and all faculty members.

Reporting and Attendance Guidelines

1 Regularity and Punctuality

Each student must report to their respective guide regularly as per the schedule. Stay on track and respect your advisor's time.

2 Progress Reporting

Students must maintain a Reporting Sheet, documenting their progress, updates, and milestones. Clear documentation ensures nothing is missed.

3 Attendance Tracking

Attendance will be monitored individually for each student. Any student absent during reporting will receive zero marks for that session. Be present and engaged to avoid penalties.

Project Timeline and Presentations

1

Feb 17-21, 2025

Finalization of Guide and Topic.

Objective: Final selection of project guide and topic confirmation.

Communicate clearly and confirm roles and responsibilities.

2

Feb 27-28, 2025

Presentation 1: Initial Project Proposal & Team Introduction.

Objective: Confirm project guide, finalize the problem statement, and introduce team members and their roles.

Teamwork is key to success.

3

May 8-9, 2025

Presentation 2: Detailed Implementation & Final Review.

Objective: Present detailed implementation plan, submit a detailed report, demonstrate milestones.

Prepare to be evaluated by all faculty members.

Evaluation and Grading Breakdown

1. Final marks will be a combination of Regularity & Reporting Attendance (20%)
2. Presentation 1 Evaluation (30%), and Presentation 2 Evaluation (50%).
3. The evaluation panel for the final presentation will include the Guide, HOD, and all faculty members.
4. Project marks will be awarded individually based on participation and contribution.

Submission Requirements

1

Progress Report Sheet

Signed by guide. Due before Presentation 1. This shows that you've been working steadily and getting feedback.

2

Final Project Report

Approved by guide. Due before Presentation 2. This is the culmination of all your hard work, so make it count with better formatting.

3

Source Code Development Environment Demo

Details of technology usage demonstration.

4

Plagiarism Report

Ensuring originality of work. Keep it original, and give credit where it's needed.

Action points

- **Submit Reports on Time:** Follow the reporting guidelines and submit progress reports as per the given schedule.
- **Prepare for Presentations:** Be ready to present your work according to the assigned schedule and format.
- **Understand the Evaluation Criteria:** Familiarize yourself with how your project will be assessed to meet expectations.
- **Stay Organized and Accountable:** Maintain clear documentation of your work and progress.
- **Communicate with Your Guide:** Regularly update your project guide and seek feedback.
- **Meet Deadlines:** Ensure timely progress by completing tasks within the given timeframe.
- **Maintain Professionalism:** Present your work in a structured and clear manner during evaluations.
